I have tight controls and vigilance on all channels and e-mail ad-

dresses. No one should be invoicing to the world crown without my approval. I should be receiving no shipping invoices at this address. All matters of shipping and invoicing carry special procedures, approvals and protocols and must be cleared through our offices in Mazatlan first.

I get thousands of emails and I miss some at times. By appearance and the evidence before me terrorists are using my name and the world crown for their own purposes. Businesses beware that around world mass media political news and general information are in a state of emergency. I do no personal mail orders for myself or for the world crown. I personally have not authorized any billing to the world crown. While we are in a state of emergency, I do business in person directly for anything I need.

6049009 is not mine. I have made no purchases from **Amazon** using this email address (josemariachavirams@live.com) in several years. I have no need to use Amazon's services to purchase any products. Customers can still get great deals on many things at Amazon. We live in a beautiful world filled with ugly untruthful news. One day it will be swept away and the world will celebrate the judgment of God MMXII and the glory of God's Holy Spirit.
